

## Additive Of Borchers

Getting the books **additive of borchers** now is not type of inspiring means. You could not only going later book stock or library or borrowing from your contacts to edit them. This is an no question simple means to specifically acquire guide by on-line. This online pronouncement additive of borchers can be one of the options to accompany you as soon as having new time.

It will not waste your time. believe me, the e-book will agreed tell you new business to read. Just invest tiny period to admission this on-line revelation **additive of borchers** as well as evaluation them wherever you are now.

Finding the Free Ebooks. Another easy way to get Free Google eBooks is to just go to the Google Play store and browse. Top Free in Books is a browsing category that lists this week's most popular free downloads. This includes public domain books and promotional books that legal copyright holders wanted to give away for free.

### Additive Of Borchers

Additive OF Physical Characteristics Appearance Clear colorless liquid Density 0.89 g/cm<sup>3</sup> Color APHA: Max. 20, ISO 6271 Features Low viscosity Eliminates moisture in solvent-based 1K and 2K polyurethane coatings Compatible with most polyol... Low viscosity Eliminates moisture in solvent-based 1K and ...

### Additive OF | Borchers

Cobalt Replacement - Borchi® OXY-Coat is a patented line of curing additives for all types of oxidatively drying resin systems. Benefits are improved drying in standard conditions, robust curing in adverse conditions and non-yellowing performance compared to conventional systems.

### Borchers - Coating Additives, Driers, Catalysts & PVDC ...

Additive OF by Borchers is a low-viscosity, 100% active, moisture scavenger that eliminates moisture in solvent-based one- and two-component polyurethane coatings during shelf life. It is compatible with most polyol and isocyanate components. The recommended usage level of Additive OF is 1-3 % as supplied based on the total weight of the coating.

### Additive OF - Borchers - datasheet

The recommended range of Additive OF is 1 - 3 % as supplied based on the total weight of the coating. Exact amounts should be experimentally determined and will be dependent on the individual system.

### Physical Characteristics Features - Borchers

Additive TI by Borchers is a 100% active, moisture scavenger that removes moisture. It is introduced with solvents, pigments, and fillers in one- and two-component polyurethane solvent-based coating systems in production. Additive TI is a low viscosity, monofunctional isocyanate which chemically reacts with water to form an inert amide.

### Additive TI by Borchers - Technical Datasheet

Product identifier Additive OF Other means of identification None. ... Company Name Borchers Americas, Inc. Address 240 Two Mile Run Road Venango County Franklin, PA 16323 USA Telephone 814-432-2125 (Customer Service, R&D and Sales: 440-899-2950) Website [www.borchers.com](http://www.borchers.com) E-mail [SDS@borchers.com](mailto:SDS@borchers.com)

### SAFETY DATA SHEET - Borchers

dispersion. Add Additive TI at a rate of 0.5 - 4.0 % of the total weight of the formula if the moisture content of the coating is 0.05 - 0.30 %. Do not add the polyol or isocyanate to the batch for 24 hours to complete the moisture elimination reaction. A surplus of Additive TI can react with polyols.

### Physical Characteristics Features - borchers.com

Purity, %: min. 98 Borchers test method 100-71 Density, g/cm<sup>3</sup>: approx. 0.9 (typical) DIN 51757 Flash point, °C: approx. 30 (typical) DIN 51755 Properties Additive OF is used to eliminate the moisture in two-component polyurethane systems through chemical reaction. Additive OF is generally compatible with polyol and isocyanate products ...

### Additive OF

Borchers: A Global Coating Additives Manufacturer. Borchers is a coating additives and specialty catalysts manufacturer. We solve problems with and make improvements to coatings systems across the spectrum of chemistries, applications and end markets. We impact the world around you every day.

### Coating Additives Manufacturer for a Range of ... - Borchers

Cobalt Replacement - Borchi® OXY-Coat is a patented line of curing additives for all types of oxidatively drying resin systems. Benefits are improved drying in standard conditions, robust curing in adverse conditions and non-yellowing performance compared to conventional systems.

### Additive TI | Borchers

Additive OF by Borchers is a low-viscosity, 100% active, moisture scavenger that eliminates moisture in solvent-based one- and two-component polyurethane coatings during shelf life. It is compatible with most polyol and isocyanate components.
