Very little business activity does not create waste and pollution. A fundamental part of capitalist activity is to produce consumer goods - that is, to turn raw materials into finished commodities. In mining, for example, we may have to mine over 200 tons of ore to furnish enough gold for twelve wedding bands.

### The environment (Chapter 9) - Ethics and Business

In business ethics, as in sporting events, whistle-blowing is related to sounding an alert that the rules of the game have been broken. But unlike the referee in a football game, the person blowing the whistle in the case of corporations is not an objective, independent observer, but rather an employee or a stakeholder who reports the misconduct of a colleague or of the corporation as a whole.

### Whistle-blowing (Chapter 9) - Business Ethics and ...

THE AUDITING PROCESS The ethics audit committee should establish the scope of the audit and monitor its progress to ensure that it stays on track. The scope depends on the type of business, the risks faced by the firm, and available opportunities to manage ethics. This step includes defining the key subject matter or risk areas that are important to the ethics audit as well as the bases on ...
