using multiple lines
and levels of evidence

- Identifying performance measures
- Using an evaluation panel
- Developing an evaluation plan

Evaluation design is concerned with the detailed planning of the evaluation.

Evaluation design - environment.nsw.gov.au

While these design alternatives often cost

Download Free Evaluation Of

less and require less time, keep in mind that saving time and money should not be the main criteria selecting an evaluation design. It is important to choose a design that will measure what you need to measure and that will meet both your immediate and long-term needs.

Program Evaluation Guide - Step 3 - CDC

- Evaluation design is

A good evaluation design can help you to identify these, and either correct for them if you can, or devise methods to deal with or incorporate them. So you can identify unintended consequences (both positive and negative) and correct for them .
