Local Economy

Local economy definition: An economy is the system according to which the money, industry , and trade of a country... | Meaning, pronunciation, translations and examples

Local economy definition and meaning | Collins English ...

Fans of devolution think that it's easier for a government to improve an economy when they're just focused on a small, "local" area, because they're more likely to be able to come up with specific, tailored solutions. For example, areas with different demographics will have different levels of need for public goods and services.

What is a local economy? — Economy

Local Economic Development is an approach to economic development, of note in the developing world that, as its name implies, places importance on activities in and by cities, districts and regions. This involves added micro-economic measures at the local level to complement macro-economic measures at the national level. LED encompasses a range of disciplines including physical planning, economics and marketing, all with the goal of building up the economic capacity of a local area to improve it

Local economic development - Wikipedia
