Thermostatic Radiator Valves by MYSON

This is a replacement standard head for a Myson TRV 2-way thermostatic radiator valve - NO valve body is included. It can be used to replace a Myson 'Contract' thermostatic head (this is the head that looks the same except it has no red markings and the bottom section is black with a white triangle rather than white with a black triangle).

Myson Standard Thermostatic Radiator Valve Head, 2TRV HEAD ...

A thermostatic radiator valve, also known as a TRV, is a self-regulating radiator valve which is fitted to radiators connected to a hot water heating system. The TRVs work by sensing the air temperature in the room and adjusting the flow of hot water entering into the radiator when the desired temperature is reached.
