About UPCO | upcopublishing.com

Back in 2017, a publication released by the Chinese military categorized biology as a new warfare domain. It also suggested that future wars could involve genetic attacks. In 1972, leaders from more than 180 nations established the biological weapons convention according to which the development of such weapons was banned.

So the short answer to VHM is that everybody in an English-speaking environment uses /ʒ/ (just as they pronounce the -s in Paris), so it is correct by all descriptive criteria. And people using /dʒ/ are just being affected (or they're foreign). There is a tension, though not a great tension, between this viewpoint and this one:

Language Log » Why we say "Beizhing" and not "Beijing"

organism fits itself to its environment (Holland, 1995). In the sense that we use it here, the system takes the place of the organism and the environment is defined

Zhoukoudian is an important Homo erectus site, a stratified karstic cave and its associated fissures located in Fangshan District, about 45 km southwest of Beijing, China. The Chinese name is spelled a variety of ways in the older scientific literature, including Choukoutien, Chou-kou-tien, Chou-k'ou-tien and today it is often abbreviated ZKD.

Because of my education in biology, I have always kept my eye on reports concerning the state of environment in China. ... My question to you is concerning the flow of information about the environment. I have searched the web in hope of finding blogs and web-based communities that focus on the environment in China, without good results.

2007 August - China and the Environment Blog - The New ...

In recent decades, rapid urbanization has resulted in a growing urban population, transformed into regions of exceptional socio-economic value. By removing vegetation and soil, grading the land surface and saturating soil air content, urban developments are more likely to be flooded, which will be further exacerbated by an anticipated increase in the number of intense rainfall events, due to ...
